Dear Mr. Landeros:

I am enclosing some copies of a few Bryn Mawr items I have in my postal history collection. I also have items from Mound City, Craftonville, Redlands, Idlewild (not Idyllwild), Messina, Lugonia, Reche, Yucaipa and Zanja--all of which had post offices and all near Bryn Mawr.

My San Bernardino county collection is not very portable as it fills up some 25 volumes. It is certainly open for your viewing, and for anyone else that is interested in the history of the area.

The Post Office Dept. form enclosed is the original application for the Brynmawr p.o.--note from the beginning there was confusion as to whether or not it would be one or two words. The map was on the back of the form.

I am very anxious to get a picture of the site of the original Bryn Mawr p.o. and would be glad to pay for a print of any picture available.

I have examples of the Mound City and Reche postmarks on envelopes, and so far as I know there are no other known examples.

Feel free to call me if you would like to see my collection, or in regard to the p.o. picture.

Sincerely,

Lewis
